

***Public Works Committee
Meeting Agenda
March 8, 2021 5:30 p.m.
City Council Chambers – Thurber Building***

1. March 8, 2021 / 5:30 p.m. City Council Chambers Thurber Community Building
2. S.C.S.:
 - A. 2022 Water Improvement Project Review
 - B. Pick up Truck Information
 - C. Water hydrant improvements
 - D. 2021 Mill & Overlay Project

Members Present: Councilors Paul Novotny and Mike Urban.

Members Absent: None

Others Present: Brian Burkholder, Craig Britton, Shane Fox and Joel Young

Ag Lease: The committee members reviewed the ag lease that the City has had in place with Schoenfelder Farms for a number of years. The members noted that a new clause has been added to the lease which is intended to protect the storm water improvements that were installed last year and recommended that the city council approve the agreement.

Pick-up Trucks: Brian Burkholder presented information about the funding and replacement schedule of the pick-up trucks that the city uses in various departments. Instead of the trucks all being funded through the public works, or street dept., Burkholder allocated certain trucks to the various departments. The new plan would have the City purchase a truck from Lewiston Auto for the sanitary sewer department. This truck would be traded in every year at no cost other than licensing as long as the truck had less than 5,000 miles on it. A one-ton truck with a dump box would be purchased for the parks department while a ½ ton truck would be purchased for the water department while a one-ton truck would be purchased for the street department. The Committee determined that they would recommend that the City Council approve the purchase of the truck for the sanitary sewer department and asked staff to bring additional information to the committee for further consideration in March.

Sidewalk Maintenance Plans: Burkholder provided an overview of the past four years' experience of using saw-cutting to maintain sidewalks differently than was done previously. Burkholder suggested that this practice has saved a lot of money versus the practice of replacing the same sidewalk panels. Based on the past four years, this saw-cutting method would be able to cover the entire city in a fourteen year period. \$5,000 of the annual sidewalk maintenance budget will be used on saw-cutting each year.

2022 – Water CIP

1. Old Territorial Tank (100,000 Gallon) – Constructed in 1963, Interior / Exterior Recoating in 1998
 - a. Scope of Work - Full reconditioning interior and exterior / no containment
 - b. Estimated Cost - \$234,000 plus 25% EAC = \$292,500
 - c. 2018 – Exterior Power wash / Replaced Vent Screen / Replaced Overflow
 - d. 2027 – 2 Year Warranty Inspection
2. Old Territorial Concrete Ground Reservoir (300,000 Gallon) – Construction Date is Unknown, but is estimated at 1890.
 - a. Scope of Work – Concrete structural repairs per 2014 inspection report
 - b. Estimated Cost - \$57,817 plus 25% EAC = \$72,271.25
 - c. 2027 – 5 Year AWWA Inspection
3. South Reservoir 3 (200,000 Gallon) – Constructed in 1976, Interior / Exterior Recoating in 1998
 - a. Scope of Work - Full reconditioning interior and exterior / no containment
 - b. Estimated Cost - \$275,000 plus 25% EAC = \$343,750
 - c. 2018 – Removed 1 foot section of overflow pipe / installed splash pad per MnDept of Health. Power washed exterior of tank / dry tank cleanout / removed sediment
 - d. 2027 – 2 year Warranty Inspection
4. Hilltop Elevated Water Tower (300,000 Gallon) – Constructed in 2009
 - a. Scope of Work - Dry tank cleanout
 - b. Estimated Cost - \$2,800
 - c. 2016 – Dry tank cleanout and evaluation was performed
5. Hilltop Elevated Water Tower (300,000 Gallon) – Constructed in 2009
 - a. Scope of Work – Power Wash
 - b. Estimated Cost - \$35,000
6. Well #2 (Old Territorial Road) Variable Frequency Drive (VFD)
 - a. Scope of Work – Installation of VFD
 - b. Estimated Cost - \$8,000
7. Generator for Well #2 (Old Territorial Road) and Booster Pump Station (Hillside Drive)
 - a. Installation of generator, concrete pad and electrical.
 - b. Booster Pump Generator Estimated Cost - \$133,335 (Plus \$8,981 ATS from open to closed)
 - c. Well #2 Generator Estimated Cost - \$105,899 (Plus \$7,365 ATS from open to closed)
 - d. Cost includes generator, concrete pad, wiring and switch gear.
 - e. Generators are proposed to be natural gas powered

8. Chemical Room Addition at Well #2 (Old Territorial Road)
 - a. Scope of Work – Concrete block addition to Wellhouse
 - b. Currently chlorine tanks are enclosed with tin, would prefer to have concrete block walls.
 - c. Estimated Cost - \$30,000
9. Well #2 (Old Territorial Road) Service Door
 - a. Scope of Work – Install a service door.
 - b. Building only has one door. Would like to add a service door next to the well so that cranes can more easily pull the pumps.
 - c. Estimated Cost - \$2,500
10. SCADA System (Supervisory Control and Data Acquisition)
 - a. Scope of Work – Installation of SCADA system for Wells 2 & 3. Allows City staff to monitor and control wells from a centralized location.
 - b. Estimated Cost - \$78,294
11. South Reservoir 3 (By south well on Johnson Street)
 - a. Scope of Work – Installation of mixer, mainly for water quality
 - b. Estimated Cost - \$15,000

Totals

- a. Old Territorial Tank - \$292,500
- b. Old Territorial Reservoir - \$72,271.25
- c. South Reservoir - \$343,750
- d. Water Tower Clean Out - \$2,800
- e. Hilltop Water Tower Wash - \$35,000
- f. Well 2 VFD - \$8,000
- g. Generators (Estimated Costs)
 - i. Booster Pump Station - \$133,335 (Plus \$8,981)
 - ii. Well 2 - \$105,899 (Plus \$7,365)
- h. Chemical Room Well 2 - \$30,000
- i. Well 2 Service Door – \$2,500
- j. SCADA System - \$78,294
- k. Reservoir 3 Mixer - \$15,000
- l. Estimated Total = \$1,119,349.25 to \$1,135,695.25**
- m. Note – CIP Included \$960,456

MEMORANDUM

TO: PUBLIC WORKS COMMITTEE
FROM: JOEL YOUNG, CITY CLERK
SUBJECT: PICK-UP TRUCK FINANCIAL INFORMATION
DATE: 02/11/2021
CC:

Action Requested: Consider a new replacement schedule for the City's pick-up trucks.

Background: In recognition that each of the public works departments have different needs, it has been determined that the management of the pick-up trucks should reflect those different needs. As a result, the financing and replacement schedule of each truck will now be reflected in the capital goods replacement plans of each of those departments, rather than the past practice of managing all four trucks through the public works department. The replacement schedule of each of these trucks will be a much shorter timeline than in the past, which will reduce maintenance costs significantly. The reduction of maintenance costs, together with the relatively higher trade-in value that is earned by trading the vehicle earlier in its lifespan is likely to result in a more cost effective method of owning and operating these vehicles.

The sanitary sewer department will purchase a new truck from Lewiston Auto at a net cost of approximately \$26,000. This will be a one-ton, regular cab, type truck. The plan will be to drive this vehicle less than 5,000 miles each year which will qualify the vehicle to be traded in for a new vehicle each year, at no cost other than licensing. This initial purchase has already been approved by the city council.

The water Department will purchase a half-ton extended vehicle at a net cost of just over \$5,000. This truck will be replaced every five years. The Water Fund has enough cash on hand to make this purchase.

The Street Department will purchase a 1-ton extended cab vehicle at a net cost of approximately \$9,000. This truck will be equipped to carry a plow and will be traded every five years. Based on the other capital items that are slated for this department to purchase this year, there is not enough cash available in this reserve fund to make this purchase. It is possible to make this purchase in 2021, though, if it is determined that it is in the City's interest to do so. Although this reserve fund would go into a deficit, the projections for this fund indicate that it will be back to a positive fund balance by the end of 2023 after which the fund balance should be stable. Delaying this purchase will result in a higher cost, though, due to a decrease in trade-in value.

The Park Department will purchase a pick-up truck with dual wheels, a dump box and a tommy lift. This truck will also be equipped with snowplow apparatus. The net cost of this truck is expected to be approximately \$57,000. Although there are a number of capital items within the Park Capital Plan still need to be prioritized, the Park Reserve Fund does have enough cash on hand to make this purchase.

In summary, while each of these reserve funds have different financial capabilities, the City is in a position to implement this plan this year if it chooses to do so. The logistics of replacing every truck in one year might be more challenging than the financing might be.....and if all trucks are replaced in 2021 the logistics of replacing every truck in a single year will occur every five years.

INTEROFFICE MEMORANDUM

TO: Public Works Committee
FROM: Brian Burkholder, SCS/Ryan Priebe
SUBJECT: Parks Truck/Dump Body/ Plow
DATE: 9/23/2020

Action Requested: To further discuss updated quotes for the purchase of a Parks truck, dump box assembly and pickup plow. To also looking for your consideration of the purchases.

Background: I met with Lewiston Auto and developed a spec to suite our needs on a 1-ton dual chassis 84' cab-to-axle minus aluminum rims as chevy does not offer that option on this vehicle. Would need to purchase after market or caps. (Quote: \$3,000)

I use the same spec when meeting Rochester Cadillac to compare apples to apples. They also do not offer factory aluminum rims but offer after market and caps. (Quoted: \$2,000)

I also reached out to Rochester Ford to see what they had to offer sending him the same Lewiston specs which they do offer factory aluminum rims. (Quote: \$550)

Final outcomes:

- Rochester Ford- \$33,130 w/factory alum. rims (plus license & reg.) Trade off 2008-No offer yet \$6,000?

- Rochester Cadillac- \$37,000 w/after-market alum. rims (plus license & reg.) * Trade offer 2008-\$8,000

- Lewiston Auto- \$34,796 w after-market alum. rims (plus license & reg.) *Trade offer 2008 \$6,000

In summary, Rochester Ford comes in lowest, \$1,666 less than the Lewiston Auto with factory aluminum rims. I have a call in to Ford on a trade offer if we choose to go that route. My guess is that they would give a minimum of \$6,000 for our 2008 Ford. At this point, The Ford F350 would be the way to go unless we wanted to stick with all Chevy's.

Thank for your time,
Brian Burkholder

City of Chatfield

Brian Burkholder

Superintendent of City Services

Please find pricing on the 2021 Chevrolet 1 ton, dual rear wheel, 4 wheel drive 84" Cab to axle per your specifications. As we discussed the 2021 fleet orders are no longer being placed which means this truck will be a 2022, however the specs will remain as you have them. Start up production is estimated to begin sometime in July and our order should be early, my guess is a September build date.

Our price on this unit as a 21 will be \$31793.00 and I do not believe the early order price would increase more than \$200.00.

Any questions please call me.

Thanks,

A handwritten signature in black ink, appearing to read 'Lyle'.

MEMORANDUM

TO: CHATFIELD CITY COUNCIL
FROM: RYAN PRIEBE, WATER SUPERINTENDENT
SUBJECT: HYDRANT REPLACEMENT
DATE: 2/2/18

Action Requested- Approve purchase of 4 hydrants from Core and Main for \$20,800.43.

Background- Every year we have been on a plan of replacing 3 hydrants a year. In 2020 we did not replace any because we spent $\frac{3}{4}$ of that money on a bulk water fill station. I would like to somewhat get back on track and replace 4 this year and then 3 next year as usual. Griffin Const. has committed to doing them the first week of July. The hydrants I would like to replace are

1. Old pool
2. SE corner of High School
3. Tennis court
4. 130 Winona St.

Bid Proposal for 2021 Chatfield MN Hydrant Replacement

CUSTOMER	CHATFIELD WATER DEPT 21 2ND ST SE CHATFIELD, MN 55923	Job 2021 Chatfield MN Hydrant Replacement Bid Date: 02/24/2021 12:30 p.m. Bid #: 1634714
	Sales Representative Ryan Imhoff (T) 507-285-5389 (F) 507-285-5392 Ryan.Imhoff@coreandmain.com	Core & Main 2913 County Road 16 SW Rochester, MN 55902 (T) 507-285-5389
CONTACT		
NOTES	Hydrants are at least 4-6 week lead time from factory, plus a few other fittings will need to be ordered as well that will need 3-5 days to get in.
